

# Personal Access PC Power Lock™

Power Source "Deadbolt" Security

## Protect your valuable data and keep your files private!

This is a foolproof, tamper-proof way to assure **ONLY YOU** gain access to your PC or Mac. The Personal Access PC Power Lock™ device is designed to limit use of your computer by controlling access to the power. No software and no encryption required! You control the power with your own personal key. When you go to a meeting, to lunch, or leave your office for the day, a simple turn of the key prevents unauthorized use of your system. The Personal Access PC Power Lock™ works on ALL PC or Mac desktop and tower computers. The PC Power Lock™ has a extra long 6 foot cable so that you can place your lock in a convenient, easy to use location. The Personal Access PC Power Lock™ product installs in seconds, permanently into your computer's power port with our patented retainer clip. Once installed, you simply plug your power cord into it and then turn ON and OFF your system with a key. Includes 2 keys and retainer clip. Custom keying options are available. Putty colored.

### Applications:

- Workplace users: Industrial, Commercial, Government School & University computer labs and libraries
- Students in dormitories and other shared housing who don't want others accessing their computer
- Home office users who do not want children or others using their business computers
- For parents to restrict access to home computer

Plugs into computer's power port

Installs permanently into computer power port with retainer clip

### Lifetime Warranty

At anytime, if you are not 100% satisfied with the PC Power Lock™, you may return this product for an immediate refund of your money.

PC Power Lock™ is patented and cUL approved.
